

SECTOR CARDS - INSTRUCTIONS

Is it required?

If you are NOT using the Digital Game Portal, printed sector cards are required.

If you ARE using the Digital Game Portal, printed sector cards are optional. They are helpful for making the sector tables more visible at the beginning of the game and for letting players pick their sector before receiving a character name tag. They are not necessary if you don't want to let players pick their sector and/or if you want to minimize printed materials.

How many to print

Print 2 copies of each sector card (12 cards total).

Printing options

Top quality

Get cards professionally printed on glossy 8.5" x 11" cardstock with full bleeds. Fold each page in half, printed side facing out. Place in table stanchions for added visibility.

Shoestring budget

Print cards on your office printer using cardstock or regular 8.5" x 11" paper. Fold each page in half, printed side facing out.
